REQUIREMENTS

Hardware:

- MSX, MSX2, MSX2+ and MSX Turbo-R
- · 16k of RAM
- · 16k of VRAM
- Joystick (optional)

Instructions:

- Trial 2 is a game for one or two players simultanously.
- You can control your racer using a keyboard or a joystick.
- At title screen, use 'up' or 'down' keys or the joystick lever to select the number of players.
- Start game pressing 'space bar' on keyboard or pressing the action button on joystick.
- Trial 2 has 5 different stages but you can't choose the order. You have to play them consecutively.
- · For each race you can win one point. You need three to win.
- If you get all 5 points you'll we rewarded with an especial ending.

CONTROLS

Player 1: Cursor keys or Joystick Port 1

Player 2: Joystick Port 2

UP: Bike climbs (fast acceleration but low speed)

RIGHT: Accelerate (medium acceleration, medium speed)

DOWN: Crouch (low accelerarton but fast speed)

LEFT: Brake

SPACE: Jump

GAMEPLAY

During the race you must overcome many obstacles. This is a list of them and some tips to avoid falling of the bike:

Walls:

You must calculate the precise moment of the jump. If you start

from far away, you will crash.

Obstacles: Different little obstacles in each level, easy to avoid with a single

jump.

Ramps:

Climb your wheel for a great jump

and see the track from the sky!

Pools:

Pools of water or oil reduce your

speed. Try to skip as possible.

Birds:

Crouch or you will fill your helmet

with a lot of feathers.
